## Exceed 3D™ 2008

Exceed 3D™ adds the advanced graphical computing power of OpenGL API – the industry standard three dimensional visual interface – to Exceed.® By leveraging the accelerated power of Windows-based PCs, Exceed 3D distributes high-end engineering and finite analysis applications based on OpenGL API to lower cost desktops, thereby reducing ownership and cost per seat.

### Take Advantage of Your PC Desktop

Not all X applications are created equal. Some X applications require more than just a simple X Server to display – they need an X Server with 3D capabilities! CAD/CAM/CAE, medical and seismic applications are just some of the many types of applications that can take advantage of the OpenGL API support provided by Exceed 3D™ and display complicated three dimensional drawings on users PC desktops. Exceed 3D is an add-on product for Exceed.®

### Key Features

- Add-on Product to Exceed® 2008
- Native 64-bit support for Microsoft Windows x64 family and Windows Vista
- Support for X11R7.2
- Support GLX 1.3<sup>1</sup>
- Support for GLX 1.4
- 3D Overlay support
- Multi-language support
- Direct Rendering support
- Included XDK development package
- Support OpenGL 1.4 extensions in device drivers

### System Requirements

#### Operating Systems

- Windows Vista
- Windows XP SP2
- Windows Server™ 2003
- Windows XP Professional x64 Edition
- Windows Server 2003 x64 Edition
- Windows 2000 SP4
- Windows Terminal Server Edition
- Citrix® Presentation Server™ for Windows platforms
- Windows XP Tablet PC Edition

#### System Requirements

- Minimum memory as prescribed by Operating System
- Hard Drive space for typical installation: 18 MB
- Exceed must be installed on the system
